Day 1 - Tuesday 9 September														
9:00-9:50	Treatment of Transverse Deficiencies with Microimplant Assisted Maxillary Expansion Appliances Peter Ngan	Soft Tissue Augmentation Yi Man	Management of Dental Caries Using Minimally Invasive Techniques Anas AlSalami	Reimplantation, Autotransplantation & Regenerative Endodontics Lucia Arguello	Clinical and Research Progress in Dental Restoration Driven by Technology Xinquan Jiang	Sugar Reduction Strategies: From Policy to Cavity Free	Co-designing Bespoke Whole Mouth Health Interventions - The Whole Mouth Health Platform and Resources Aaron Davis	9:00-9:45	Oral Microbiome and Colon Cancers Cunyu Wang	Clinical Correlations, Challenges, and Strategies in Dental Restoration and Endodontic Treatment Symposium Moderator Lin Yue, Haiyang Yu Topic 1: Pulpal Considerations in Crown Preparation for Vital Teeth Lin Yue TRS Algorithm-driven New Strategies in Tooth Preparation: Achieving Tooth Preservation, Periodontal Protection, and Prothesis Realization Haiyang Yu Topic 2: Necessity of Crown Removal for Root Canal Treatment in Teeth with Existing Crown Restorations Haiyang Yu Coronal Restorations in Endodontic Treatment: Remove or Not ? Yuhong Liang Coronal and Apical Sealing of the Restoration After Root Canal Treatment Cui Huang Topic 3: Conveniences and Limitations of Chairside Direct Restorations Lin Yue, Haiyang Yu Advantages and Limitations of Direct Composite Resin Bonding Restoration Xudong Bao The Rationale for the Efficient and Effective Chairside Dental Restorations Weicai Liu				
	10:00-10:50	Will AI Become A New Perspective in Orthodontics in the the Future? Zuolin Jin	Occlusal Disharmony and Chronic Oro-facial Pain Ye Cao	Progress and Retrospective Study on Treatment of Complicated Crown-root Fractures of Permanent Anterior Teeth Li'an Wu	New Negative Pressure Root Canal Obturation Bing Fan	Dental lasers: An Essential Tool in Achieving Optimal Dental and Implant Esthetics Mohamed Moataz Khamis	Jason Wong Shuguo Zheng Heming Olsen-Bergem				Digital Dentistry Society Symposium The Digital Technologies in the Modern Dentistry - How to Improve the Quality of the Daily Practice by the Use of the Digital Technologies Feng Liu Fabrizia Luongo Chun Xu Jaafar Mouhyi	9:45-10:30	Deep Thinking on the Heritage and Progression of Oral and Maxillofacial Surgery with Distinctive Chinese Characteristics Zhiyuan Zhang	
		11:00-11:50	Autotransplantation of Teeth in Orthodontics Chun-Hsi Chung	Strategies on Soft Tissues Management in Preparation for Implant Placement on Patient with Severe Periodontal Disease. Wenjie Hu	Management of Dental Caries Lesions in Patients with Disabilities Young-Jae Kim	Application of Computer-assisted Dynamic Navigation System in Endodontics. Paula Villa	A Deep-learning-based Tooth Morphology Completion Technique and System Jiefei Shen				Unmasking Illegal Dental Practice Doniphan Hammer Kinga Grzech-Leśniak Mick Armstrong		10:30-11:15	Homeostatic Medicine - New Strategies for Maintaining Health and Preventing and Treating Diseases Songling Wang
			Emerging Trends in Medical Robotics Research: From Precision Manipulation to Intelligent Collaboration Yimin Zhao	11:15-12:00										
12:00-14:00			Lunch Symposium P&G				Lunch Symposium Colgate							
14:30-15:20	Aesthetic Procedures in Children and Adolescents: Is It Possible to Change Tooth Color Early in Life? Tamara Peric	Periodontal Healthcare in General Dental Practice Lijian Jin	Preserve Vital Tooth: Avoiding the Avoidable in Dental Practice Xiaoyan Wang	Current Status of Primary Teeth Caries and the Strategy of Comprehensive Oral Health Care in China Yan Si	RESTORATION SYMPOSIUM Aesthetic Restorations Advanced Cases Moderator Hande Sar Sancakli Indirect Ceramic Restorations, "Solutions for Compromised Smiles" Hakam Mousa Digital Esthetic Prosthodontic Treatment for Patients with Cleft Lip and Palate Cui Huang Restoring Severely Eroded Teeth with a Fully Digital Workflow Christian Moussally	World Oral Health Day Launch	Digital Dentistry 2.0: Overcoming Challenges, Shaping Innovation - Drilling Down into Digital Dentistry Walter Yu Hang Lam Andrew Keeling Abou-Ayash Samir Falk Schwendicke	14:00-15:00	Research and Progress in Chinese Dental Caries Xuedong Zhou	SYMPOSIUM Problem Solving in Diagnosis and Treatment of Periodontal-Endodontic Lesions Moderator Lin Yue, Yaping Pan Topic 1: Diagnosis: Histological Changes of Dental Pulp and Clinical Diagnosis in Teeth with Periodontic-Endodontic Lesions Case Report: Combined Periodontic- endodontic Leasion in a Mandibular Molar. The Progression of Pulpal Involvement and Vitality Tests in Teeth with Endodontic-periodontal Lesions. Discussion: Fuhua Yan, Lihong Qiu Topic 2: Treatment Decision: Clinical Criteria and Indicators for Retaining Teeth with Periodontic-endodontic Lesions Apical Microsurgery Combined with Periodontal Bone Grafting for Treating Maxillary Anterior Teeth with Endo-periodontal Lesions in Periodontitis Grade 2: A Case report. Chen Li Literature Review on the Decision-making between Retention and Extraction of Teeth with Endo-periodontal Lesions Discussion: Benxiang Hou, Yan Xu Topic 3: Treatment Protocol: Timing Selection and Integrated Treatment Plan for Endodontic-periodontal Lesions Non-surgical Treatment for Periodontal-endodontic Lesion in the Lower Right Second Molar: A Case Report Yu Du Periodontal-endodontic Lesions: When and How? Hongyan Liu A 7-year-preservation of the Maxillary Posterior Teeth with Endo-periodontal Lesions in Stage IV Grade C Periodontitis Patients: A Case Report Chen Li The Timing and Sequencing in Treatment Strategy for Endo-periodontal Lesions Xiaolin Tang Discussion: Xi Wei, Wenjie Hu				
	15:30-16:00	Image Fusion: A New Diagnostic Approach to TMJ Related Abnormalities Gang Li	Severely Worn Occlusion, What to Do? Veneers or Crowns, Crowns or Onlays, the "Re-enameling Concept". Marco Nicastro	Preclinical Study on New Bone Surface-targeting Anchorage Device for Orthodontic Application Keiji Moriyama							Use of Sealants for the Prevention and Management of Pit and Fissures Caries Mounir Doumit	15:00-16:00	Dialogue with CSA Presidents Chuanbin Guo Xing Wang Guangyan Yu	
		16:00-16:20												16:00-17:00
Day 2 - Wednesday 10 September														
9:00-9:50	Clear Aligners Treatment for Interdisciplinary Orthodontic Care Peter Ngan	Peri-implant Esthetic Soft Tissue Management from A Prosthetic Perspective Mohamed Moataz Khamis	Surgical or Conventional Endodontic Retreatment Paula Villa	Young Dentists Forum Keynote Lecture The Moral Responsibility of Modern Dentistry Miguel Stanley Young Speaker Contest Winner Lecture The Digital Dentist - A New Generation of Dentists Luis Anes panel discussion Building Tomorrow's Dental Leaders: Early Engagement, Lasting Impact	Oral Manifestations of Systemic Diseases in Children and Adolescents Juan F. Yepes	ACFF Symposium How Do We Shift Policy and Practice Towards Improving Caries, Oral Health and Health? Nigel Pitts Tim Newton Deniz Devrim Charanjit Jagait	Oral Health Observatory: the Importance of Practice-based Data Collection for Policy Development and Advocacy Yan Si Michael Sereny Antoine Choufani	9:00-9:30	Development of a Biodegradable Magnesium-based Guided Tissue Regeneration Membrane Chuanbin Guo	Occlusal Factors in Peri-implant Marginal Bone Loss – An In-depth Analysis Jiang Chen				
					9:30-10:00		Establishing a Safe Workflow for Anterior Esthetic Rehabilitation and Detailed Clinical Considerations Yunsong Liu							
10:00-10:30	Interceptive Orthodontics Chun-Hsi Chung	Direct and Indirect Esthetic Restorations, the BIOMETIC Approach. Hakam Mousa	Management of Susceptible Periodontal Patients via An Individualized Approach Lijian Jin	The Digital Dentist - A New Generation of Dentists Luis Anes panel discussion Building Tomorrow's Dental Leaders: Early Engagement, Lasting Impact	Caries Management by Risk Assessment Young-Jae Kim	Mental Vitality Test: Addressing the Roots of Student Wellbeing. The Role of NDAs and Dental Schools Matt Hopcraft Tim Newton Deniz Devrim Kaya	Towards Healthy Longevity: New Tools and Strategies for Oral Health in Older Adults Kakuhiro Fukai Hirohiko Hirano	10:00-10:30	The Precision and Accuracy in Aesthetic Dentistry Jianguo Tan	Esthetic Anterior Composite Resin Restoration - A Simplified Approach Jiyao Li				
10:30-10:50							10:30-10:50	Digital Leap in Immediate Implant Placement of the Esthetic Zone Xiaoqiang Liu						
11:00-11:50	The Pivotal Role of Orthodontics in Adult Oral Multidisciplinary Combined Treatment Bing Han	The Contribution of Artificial Intelligence to Digital Dentistry. Where Are the Limits? Christian Moussally	Non-impacted Third Molars and the Periodontal Health of Their Neighbours Faming Chen	moderator Elizabeth Schick panelists Dasom Kim Yi Man Huan Huang	Restoring or Sealing? A Comprehensive Approach to Occlusal Caries Tamara Peric	Matt Hopcraft Tim Newton Deniz Devrim Kaya	Towards Healthy Longevity: New Tools and Strategies for Oral Health in Older Adults Kakuhiro Fukai Hirohiko Hirano	10:50-11:00	Optimization and Clinical Application of Digital Precision Implant Surgery Technology Zhonghao Liu	Digital-assisted Functional and Esthetic Full-mouth Rehabilitation Weiliang Wu				
			10:50-11:10					Porcelain Veneer Esthetic Restoration: Complications and Key Prevention - Control Strategies Shanshan Liang						
			11:10-11:30					New Horizons in Materials and Techniques for Minimally Invasive Esthetic Restoration Ling Zhang						
			11:30-11:50											
			11:50-12:00					Discussion Moderator Yunsong Liu						
12:00-14:00			Lunch Symposium Listerine				Lunch Symposium Halcon							
14:30-15:20	Esthetics & Function, How to Manage the Treatment Plan in Complex Oral Rehabilitation. Marco Nicastro	Management of Teeth with Developmental Enamel Defects Anas Al Salami	Application of Physiological Anchorage Control in Orthodontic Treatment Si Chen	Diabetes vs Oral and Dental Health Mounir Doumit	PERIODONTICS SYMPOSIUM Moderator Li-Jian Jin Periodontal Healthcare in Daily Practice for Oral and General Wellbeing:An Update, Transformational Potential and Perspectives Speakers Maurizio Tonetti Meizi Eliezer Yan Xu	Tobacco Cessation in Dental Practice: Skills, Strategies, and Success Stories Hiroshi Ogawa Dongbo Fu Simona Dianiskova Wensheng Rong	Integrating Sustainability as Dental Professionals Nicolas Martin	14:00-14:45	Clinical Reasoning on Pulpal and Periapical Diseases in Primary Teeth Moderator Jun Wang 1. Can pulpotomy be performed in cases of irreversible pulpitis in primary teeth? 2. How to determine the presence of vital pulp tissue in young permanent teeth with periapical pathology? 3. Is regenerative endodontic therapy indicated after replantation of avulsed young permanent teeth? 4. For young permanent teeth with crown fracture and dentin exposure close to the pulp (pink but no bleeding), is pulpotomy necessary? Bin Xia,Jing Zou,Guangtai Song,Jiajian Shang,Zhengwei Huang	Clear Aligner: Tips and tricks for a successful case Carlos Manuel Brito Augusto				
	14:45-15:30	Characteristics and Significance of the Fourth-dimensional Variable of the Dentition Tianmin Xu												
15:30-16:20	Management of Dental Trauma: Evidence-Based Approaches Lucia Arguello	Aesthetic Solutions with Conservative Treatments. A Clinical Step by Step for Daily Practice Carlos Fernandez Villares	How to Achieve a Predictable Result of Full Arch Immediate Implant Restoration Ye Lin	Evaluation of the Tongue Posture and Movement Before and After Orthognathic Surgery for Mandibular Prognathism Keiji Moriyama				15:30-17:00	Clinical Reasoning on Pulpal and Periapical Diseases in Young Permanent Teeth Moderator Bing Fang Moderator Jun Wang 1. Is vital pulp therapy indicated for young permanent teeth with irreversible pulpitis? 2. How to determine the presence of vital pulp tissue in young permanent teeth with periapical pathology? 3. Is regenerative endodontic therapy indicated after replantation of avulsed young permanent teeth? 4. For young permanent teeth with crown fracture and dentin exposure close to the pulp (pink but no bleeding), is pulpotomy necessary? Xu Chen,Wei Zhao,Li'an Wu, Weihua Guo,Zhengwei Huang	Moderator Bing Fang Zhenxia Li The Aesthetic Analysis of Different Orthodontic Decisions for Class II cases The Orthodontic Treatment for Skeletal Class III Malocclusion-A case report Axian Wang The Multidisciplinary Sequential Treatment for the Cleft Lip and Palate-A case report Jie Zheng Discussion: Bing Fang, Hong He, Zuolin Jin, Yuxing Bai, Jun Wang, Weiran Li, Jinlin Song, Fang Jin, Min Hu, Yang Cao

Day 3 - Thursday 11 September

9:00-9:50	 Clinical Applications of AI in Periodontology and Implant Dentistry Maurizio S. Tonetti	 The Use of Adhesive Dentistry to Improve Oral Rehabilitation, Less is More Carlos Fernandez Villares	 Pediatric Oral Radiology: From Radiation Safety to Lesions and CBCT Juan F. Yepes	 Improving Treatment of Adults Patients with Learning disabilities Hebah Faden	 ENDO SYMPOSIUM Moderator Chengfei Zhang Vital Pulp Therapy Said Dhaimy Advances in Vital Pulp Therapy for Mature Permanent Teeth: Concepts and Practice Xi Wei Pulpotomy: Rationale Behind and Clinical Evidence Xin Xu	 Women in Dentistry Forum Pioneering Women in Dentistry A Legacy of 25 Years, Shaping the Future of Dentistry Together. Fang Bing, Ashwini Bahlerao, Karin Irani, Phophi Kamposiora, Henriette Lerner, Marzena Dominiak, Hande Şar Sancakli	 From Evidence to Action: Reducing Excessive Free Sugar Consumption with Smart Policies Greg Chadwick Nicole Rendell Leenu Maimanuku Jing Wu	9:00-9:30	 Seminar on High-quality Development of the Society of Chinese Dental Practitioners, CSA Moderator Xuefeng Chen Refined Management of Dental Clinics Baojie He Current Status of Oral Health and Systemic Health in Japan Yiru Fang Medical Quality Management and Control in Dental Clinics Jincai Zhang Discussion Xuefeng Chen Baojie He Jincai Zhang Yiru Fang Haiping Lu	 Multidisciplinary Treatment Strategy for Temporomandibular Joint Osteoarthritis Qing Zhou
10:00-10:50	 Shaping the Future of Implant Surgery: From Navigation to Robotics Yiqun Wu	 Orthodontic Treatment of Class II Malocclusion Guided by Facial Aesthetics Bing Fang	 Mastering Soft Tissue Techniques for Optimal Dental Aesthetics Meizi Eliezer	 Cariology: Understanding and Managing Dental Caries Adrián Gómez	 Complex Implantology Made Easy, Simple Tips and Tricks and To-do Lists Ashwini Bhalerao	 WDW 25th Anniversary Celebration & Networking Lunch	 Vision 2030 5 Years on, 5 Years to Go Nicole Rendell Manu Mathur Baraka Nzobo Marco Vujcic Yan Si	9:30-10:00		 Standardized Operation and Treatment of Digital Occlusal Splint Zhiyong Li
11:00-11:50	 Outcome Driven Prosthodontics: The Art of Teamwork George Papavasiliou	 Aesthetic Design and Clinical Implementation of Digital-intelligent Orthodontics Xianglong Han	 Disruptive Innovations - What About AI, Oral Radiology & Personalized Dental Medicine? Michael M. Bornstein	 Prevention of Oral Cancer Hongwei Liu				10:00-10:30		 Experts Consensus on Standard Items of the Cohort Construction and Quality Control of Temporomandibular Joint Diseases Yanyi Wang
								10:30-11:00		 The Etiology and Treatment Strategies for Temporomandibular Joint Disorders Yehua Gan
								11:00-11:30		 The Occlusion Harmony of TMD Diagnosis and Treatment Shibin Yu
								11:30-12:00		 Discussion Moderator Songsong Zhu
12:00-14:00					Lunch Syposium Haleon					
14:00-14:30								14:00-14:30	 Strategies for Managing Implant Subsidence Yi Man	
14:30-15:20	 Material and Method Selection for Implant-supported Restorations Uğur Ergin	 Recent Advances in Biomechanics of Clear Aligners Extraction Cases Zhihe Zhao	 Interpretation of Guidelines for Radiographic Examination in Cariology and Endodontics Liuyan Meng	 Orofacial Pain & Temporomandibular Disorders: Clinical Secrets and Updated Overview Mohammed Al-Harthy	 AI-enabled Automatic Assessment of Dental Age and Tooth Development Status Meng You	 SPECIAL SCHEDULE Manuscript Mastery: A Dialogue with Journal Editors Liran Levin Annie Zhao Chuanbin Guo Lakshman Samaranayake		14:30-15:00	 Immediate Loading in Edentulous Patients: Management and Prevention of Individual Failures Chunbo Tang	 In-depth Multidisciplinary Expert Review of Rare Complications in Dental Alveolar Surgery Moderator Jihong Zhao Intraoperative Lost Tooth During Third Molar Extraction: A Case Report Yang Wu A Case of Secondary Extraction of a Left Mandibular Impacted Third Molar Tiantian Wang A Case Report of a Metallic Foreign Body in the Right Mandible Jiale Huang A Case of Severe Post-extraction Infection Li Ye Discussion Jihong Zhao, Yong Cheng, Wei Zhang, Kaijin Hu, Jian Pan, Duohong Zou
15:30-16:00	 In Pursuit of Aesthetics: Management of Complex Implant and Prosthetic Cases Helder Moura	 Early Treatment of Angle Class III Malocclusion -Addressing the Symptoms and Root Causes Hong He	 Clinical Application of Laser in the Treatment of Endodontic Diseases Wenxi He	 10-minutes to Save a Life Stanley F. Malamed	 Multimodal Analgesic Strategies for Daily Clinical Interventions Daniel Chavarria-Bolaños			15:00-15:30	 Clinical Experience and Risk Management for Bone Augmentation in Severe Vertical Bone Defects Across Different Anatomical Sites Jian Zhang	
16:00-16:20								15:30-16:00	 Digital Technologies in Alveolar Ridge Construction and Simultaneous Implant Placement Yu Zhang	
								16:00-16:30	 Key Techniques for Precise Diagnosis and Treatment of Full-arch Implant-supported Rehabilitation Junyu Shi	
								16:30-17:00	 Discussion Moderator Hongchang Lai	

Day 4 - Friday 12 September

9:00-9:50	 Clinical Evaluation of Autonomous Robotic-Assisted Full-arch Implant Surgery Shizhu Bai	 ARTICAINE HCl – Dentistry’s Newest and Most Interesting Local Anesthetic; “Is the ‘Mandibular Block’ Passé” Stanley F. Malamed	 Augmented Reality Integration in Digital Minimal Invasive Endodontics Treatment Zhengwei Huang	 Accessible Dental Care and Preventive Strategies: Inclusive Approaches for Individuals with Disabilities Adrián Gómez	 IMPLANT SYMPOSIUM Moderator Hongchang Lai Strategy for Implant Restoration in the Edentulous Maxillary Posterior Region Zhuofan Chen Digital Workflow for Implant-supported Fixed Restorations Uğur Ergin Contemporary Approach to the Anterior Maxilla Helder Moura
10:00-10:50	 Strategies of Orthodontic Treatment for Space Loss in Mixed Dentition Weiran Li	 Management and Outcomes of Temporomandibular Joint Ankylosis: A 23-Year Single-Center Retrospective Cohort Study Dongmei He	 Clinical Pulp Regeneration: Current Approaches, Challenges, and Future Perspectives Chengfei Zhang	 Early Diagnosis, and Treatment of Oral Leukoplakia Qianming Chen	
11:00-11:50	 Novel Low-dose Protocols for CBCT: A Game Changer in Diagnostic Imaging? Michael M. Bornstein	 Temporomandibular Disorders and Orthodontic Treatment: Myths vs Reality Mohammed Al-Harthy	 Soft Tissue Utilization Around Implants Meizi Eliezer	 Sharpening Emotional Intelligence Skills in Dental Settings Hebah Faden	 Anesthetic Blockade Failure: Reasonable Explanations and Clinical Recommendations Daniel Chavarria-Bolaños
14:30-15:20	 From Crisis to Control: Proactive Strategies for Instrument Separation Chen Zhang	 Implantology Development: From Free Hand to Static to Dynamic and AI Ashwini Bhalerao	 Endoscopic Assisted Surgery in Mandibular Third Molars Extraction Xiangliang Xu	 Focusing on Oral Health of the Elderly: Challenges and Strategies Xi Chen	 The Interpretation and Application of the CSA Expert Consensus on Periodontal Examination and Evaluation Chen Li
15:30-16:20	 Development and Implementation of Clinical Practice Guidelines for Periodontal and Peri-implant Diseases Maurizio Tonetti		 Endodontic Retreatment: The Path to the Apex Said Dhaimy	 Classification, Diagnosis and Surgical Treatment of Temporomandibular Diseases Songsong Zhu	 Crafting Perfection: Ceramic Restorations and Predictable Aesthetics Through Digital Solutions George Papavasiliou

ADA CERP®

Continuing Education Recognition Program

FDI World Dental Federation is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. FDI World Dental Federation designates as follow: Sessions eligible for credits are marked with , 0.25 credits are available per 15min of session. each session of 50min is worth a maximum 0.75 credits. each symposia of 110min is worth a maximum of 1.75 credits. Lunch Symposia and Sessions scheduled in room S and N are not eligible for credits, unless specified differently. to collect CE credits, participants must get scanned in and out of the session and must complete the session survey in their online delegate profile.

中华口腔医学会

Chinese Stomatological Association

Courses marked with  are Recommended Program of National Continuing Medical Education (CME) During the World Dental Congress 2025 (WDC) hosted by FDI, the Chinese Stomatological Association (CSA) will organize a total of 5 recommended continuing medical education programs. In accordance with the relevant regulations on continuing medical education, each program will award 1 credit for every 3 learning hours. All participating trainees must register, complete the check-in and meet the required learning duration for the corresponding course, and pass the assessment before they can obtain the corresponding credits.
